RADEX AIRLINE FILTER

ADVANCED FILTRATION CAPACITY & VERSATILITY

Polluted air can be the cause of major health issues and, at the very least, can adversely affect operator comfort and productivity. The RPB Radex® Airline Filter improves the quality of the air your employees are breathing and exceeds industry filtration standards so you can be assured that your operators won't suffer the consequences of breathing contaminated air.

The filter is fitted with a large capacity, 6-stage filter cartridge that removes moisture, odor and particulates to 0.5 micron from the compressed air stream, providing clean, breathable air. The Radex features a unique twist-and-lock wall and floor mounting system.

An optional auto drain valve is available to fit to your filter that continually removes moisture from the filter housing, increasing the lifespan of the filter cartridge.

6 OUTLET SYSTEM

Upgrade to the 6-outlet system to provide filtration to six separate airlines from one filter.

1-866-494-4599 | rpbsafety.com

Quick disconnect coupler that is compatible with brands including Aro, Cejn, Dixon and Rectus.
